

Greetings Sarah,

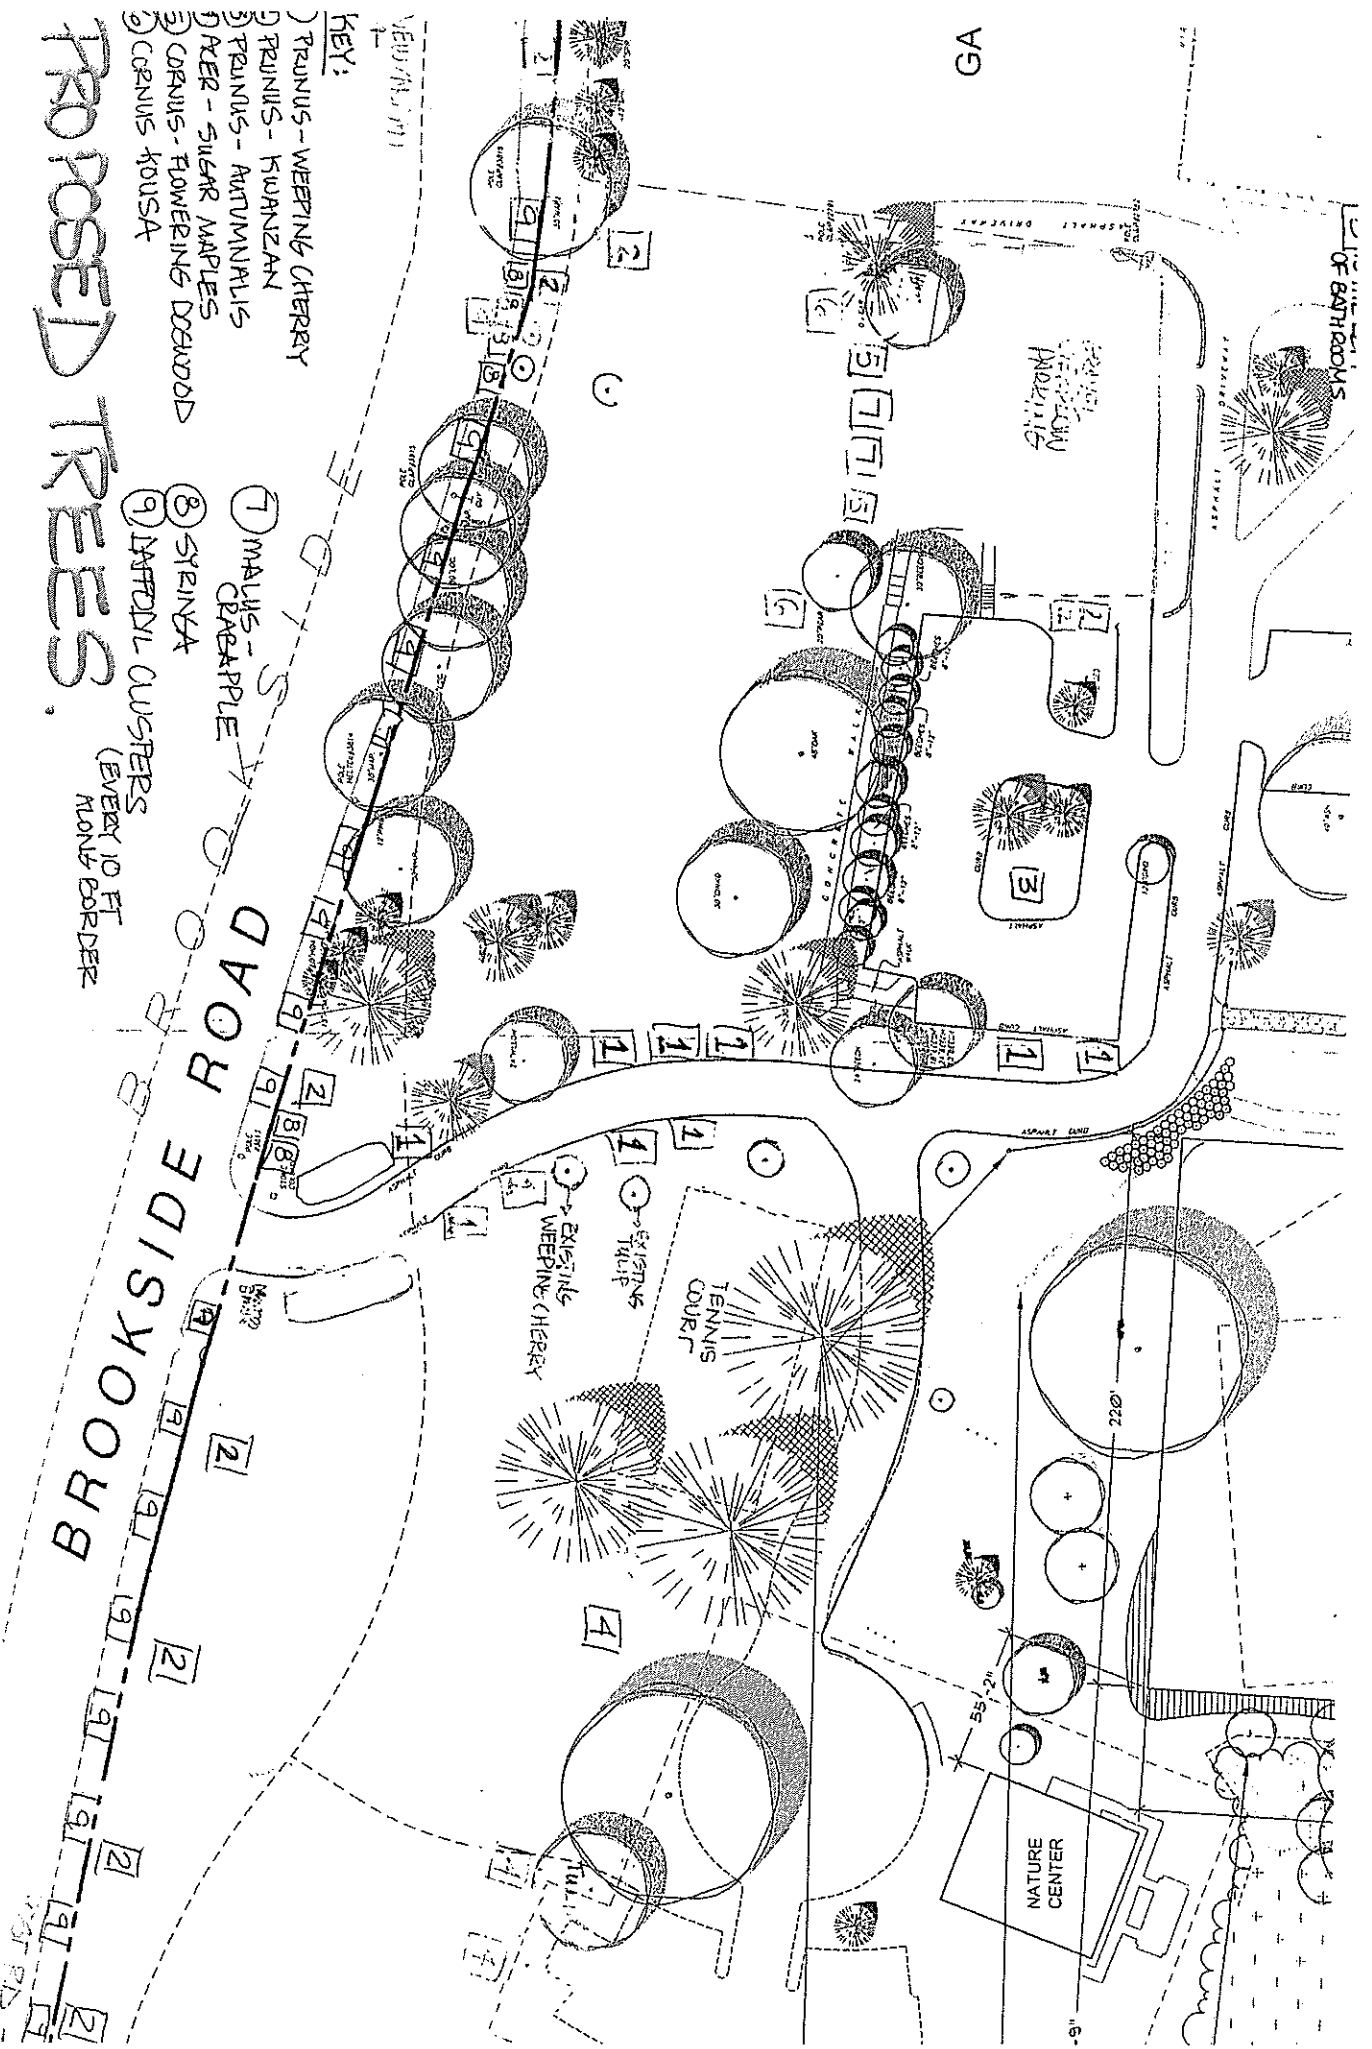

The Garden Club of Darien raised a substantial amount of money at our flower show last fall. We have come up with a plan to beautify and enhance Cherry Lawn Park with a gift of a \$38,000.00 donation to the Town of Darien. The plan includes the removal of dead tree stumps, the planting of numerous new trees, and planting 2 entrance gardens at Cherry Lawn Park. We have presented the plan to members of the Park & Rec Commission and the First Selectman, and all are thrilled and excited to see this project move forward. We will formally present the project plan to the Park & Rec Commission members next Wednesday May 14<sup>th</sup> and expect to receive their approval.

We would greatly appreciate your temporarily holding a slot on the June 9<sup>th</sup> RTM Meeting Agenda for us to present the project plan to the RTM members for their approval so that this project can move forward quickly. You will receive a formal request from the Park & Rec Commission after next Wednesdays meeting.

We look forward to hearing from you, with many thanks and best regards,

Emily D'Andrea & Debbie Bussey  
Garden Club of Darien
